## ATTACKS ON DOCTORS AND HOSPITALS

*An issue to be readdressed.....!*

Violence against Doctors and Hospitals is a major issue that needs solution. Attacks on hospitals is an issue which started more than four decades back and still continuing. The cause is multifactorial and the issue is complex. Many leaders tried to address this issue but attacks continued unabated.

This year we tried to address this issue on a wider perspective. The target set was to reduce the attack by atleast 25% compared to previous years. A seperate committee 'Act Force' with Dr. M N Menon as Chairman and Dr. Pavan Madhusudanan as Convener was formed to formulate ways and means to address this issue.

After a short study by a committee on issues related to violence that has happened in earlier years, an action plan was formulated to address the issue. Ways and means to prevent an attack with immediate and long term strategies were discussed in detail. A book, 1st of its kind in our State, was published. Measures to educate the doctors and hospital staffs at district and branch levels were started with the support of 'Consortium of all Private Hospital Owners Associations' formed by IMA.

270 th State Working Committee passed a unanimous resolution demanding declaration of Hospitals by Government as 'Safe Zones'. Demand was made before the Chief Minister and Health Minister. Discussions were undertaken. Also PP Scheme was entrusted to deal with legal aspects of each incidence without considering whether the victim is a member or not.

At the same time, other ways and means to prevent hospital violence were continued. Efforts to strengthen the association and empower the members was undertaken on a war footing. Political lobbying was done among almost all Political leaders, more than 45 MLA s, MP s and even among local leaders through the 'THARANGAM' Yathra. Questions regarding violence in hospitals were raised in the Assembly. Press and Visual media were addressed 15 times and three editorial boards of major medias were interacted to make them aware of the problems related to violence in hospitals. Our District officials submitted memorandums to District Collectors and local MLA s demanding proper actions to prevent violence against Doctors and Health Workers. All visual and print medias came out

with IMA's demand for protection of Doctors against violence.

We met many police officials and a hot line with police chief (DGP) was established. Each incidence of violence was brought to his notice and every attack on Doctors were followed up meticulously. Preparations for a State wide Strike in the incidence of violence at Perinthalmanna was planned but police took immediate proper action. Care was taken to register proper FIR's in all cases and help of local advocates were sought with financial assistance from PP Scheme. Arrests of culprits with charges under prevention of violence in hospitals act were ensured in almost all incidences. Attempts to prevent anticipatory bail by culprits were prevented legally in most cases.

Our case seeking protection at work place is pending before the division bench of Kerala High Court. Fresh affidavit is submitted and the court has sought versions from other stake holders also. Some favourable comments and judgments came from some courts. We expect a favourable judgment from the Division bench also.

Interactions with public and opinion makers on the issue of hospital violence was undertaken in all the 14 District Conventions of IMA. Top media persons, Police officials, Politicians, Social Workers etc were participants in all panel discussions on Hospital Attacks in the District Conventions. Intention was to create public opinion against violence.

Number of attacks came down drastically in the initial phase of the year and all cases that happened were followed up meticulously. Total number of attacks that happened last year was 140 as per records. The number came down to 38 in the initial 10 months of the year.

Unfortunately some of our own members tried to defeat and nullify the programme with impractical proposals and non co operation. Many didn't take up the initiative seriously. This reduced the enthusiasm among many members. We failed to implement the recommendations at local level. A serious and sincere effort to address the menace of attacks on Doctors and Hospitals is temporarily slowed down. In last month itself, there was a spike in number of attacks. 6 cases of violence on Doctors were reported. We need to rethink and readopt the strategies.

Talks with the Government has started yielding results. Chief Minister has agreed to ammend the existing law to prevent violence in hospitals and make it more stringent. Talks are on and IMA has entrusted a former Director General of Prosecution with the task of formulating a draft for the new law. It will take a little more time but we are sure that our continuous and united efforts will yield results.

**Dr. Joseph Benaven**  
Secretary, IMA KSB

# From the Editor's Desk

## GO YOUNG... *The way forward*

Time has come for the Indian Medical Association to undergo a generational transition paving way for meaningful participation of the youth. The role of youth is important when it comes to shaping and developing the association as they possess the capabilities to determine the future of the association. The young generation has more concurrent dreams, passion and hope and have to be groomed to renew, refresh and maintain the current ethos and values of the association.

The organizational goals of our association which serves not only as the watchdog of the profession but also remains focused on the welfare of doctors and their families has a high dependence on youth for its maintenance and sustainability. The youth is the backbone and the future. Empowering youth by engaging and involving them is important because we need to ignite the flame of their power to take control of the future- the future that the youth will live in.

We need to equip them with the right skill sets and tools to make them better decision makers. Empowerment will help them discover their innate potential helping them unleash their best qualities, be it in the form of better judgement and wisdom and also help them better understand their roles and duties to the association. We should provide them with the right resources, guidance and a good environment with proper mentoring so they become committed leaders of the future.

Indian Medical Association Kerala State Branch is committed to quality youth engagement and the first significant step was the first ever Young Doctors Conclave organised at IMA Periyar House, Aluva. The two day event witnessed the confluence of more than 120 select young leaders from across the state. It served as a platform for the generation Next to share their vision and in turn hear the leaders who have played significant roles in shaping the association. May this be a beginning well made....

# JOIN US ON TELEGRAM...

Dear Members,

Greetings from IMA Kerala State Branch!!

This Telegram platform has been created by IMA KSB to reach out and disseminate information to each and every member of the State, following suggestions from a wide section of our members. This will primarily function as a broadcast group for the State leadership to convey important matters and decisions directly to the members. Various schemes and activities of the state may be promoted through this medium.

Telegram will not be a substitute to the whatsapp groups being popularly used at present but will compliment the present channels of communications albeit with a wider reach connecting members to the state leadership.

Its kindly requested that the link be circulated widely among our members through the branches to onboard all our members on to this platform. Branch Presidents and Secretaries may please take up the responsibility to popularise Telegram in their respective branches.

Thank you for your cooperation

**Dr. Joseph Benaven**  
State Secretary, IMA KSB

## JOIN US ON TELEGRAM...

Dear Members,

Greetings from IMA Kerala State Branch!!

This Telegram platform has been created by IMA KSB to reach out and disseminate information to each and every member of the State, following suggestions from a wide section of our members. This will primarily function as a broadcast group for the State leadership to convey important matters and decisions directly to the members. Various schemes and activities of the state may be promoted through this medium.

Telegram will not be a substitute to the whatsapp groups being popularly used at present but will compliment the present channels of communications albeit with a wider reach connecting members to the state leadership.

Its kindly requested that the link be circulated widely among our members through the branches to onboard all our members on to this platform. Branch Presidents and Secretaries may please take up the responsibility to popularise Telegram in their respective branches.

Thank you for your cooperation

**Dr. Joseph Benaven**  
State Secretary, IMA KSB
